

#116

Tennessee Medium Fieldstone

(with light buff mortar joints)

The field ledge style goes well with the soft sandy textures and predominantly browns and few gray tones of Fieldstone. The earthy colors range bring you back in time for an old rustic style. . This mosaic pattern with the size rock works great for large and medium size projects. Full stone house, columns, accent walls, outdoor kitchens and retaining walls are some of the most common applications.

1"- 2" thickness for thin veneer walls, sold by the sqft. corners by linear foot

3"-5" for full veneer, average of 35 sqft. per ton.

You can also install this stone on a dry stack wall (without joint) as preference.
