

#118 Smoky Mountain Fieldstone

Fantastic mix of colors and irregular shapes that helps this stone captivate designer's attention and achieve the most perfect rustic look. It works well for dry stack retainer walls (no joint), as shown on wall display above. It can also be used for house siding, columns and hardscape applications.

1"-1.5" saw cut for thin veneer, sold per sqft. Corners by linear foot

3"-5" covers an average of 30 -40 sqft, sold by the ton.
