

#122

French Limestone

(with ultra dark mortar joints)

Old time, rustic look with a bold feel due to the light color tones. The irregular shapes and texture will help with a rustic home décor. The stone form and rough edges will work well in outdoor walls and fireplaces. It can also be apply on house sidings, retainer walls, firepits and hardscape.

1.5"-2" thickness , saw cut thin veneer, sold by the sqft, corner sold by linear feet.

3"- 5" Full size building stone, average of 40-45 sqft Per ton
