

#148 Creek Rock Small

Extremely versatile stone, it could be use on multiple applications such dry-stack stone or if you prefer with a mortar joint of your choice (picture). It is also use for dry creek beds and water run-offs.

The coverage depends on the size of the stone and its application, for example;

2"-5" or 6"-12" drystack 35-40 sqft per ton (fullsize veneer 5"-6" bed depth) add 5 +/- sqft for joint application

Dry creek beds;

1"-3" 50-60 sqft per ton @ 2"-3" deep

2"-5" 40-45 sqft per ton @ 3"-3.5" deep

6"-12" 25-30 sqft per ton @ 4"-6" deep
