

#232 Black Regency Blend (white mortar joint)

A majestic blend of stones with attractive mix of gray tones, browns, charcoal and silver-gray and a contrasting color joint. All these to add a contemporary look to your space. The Irregular shapes with a broken face texture give a more natural look. It will work great on small, medium or large projects. House siding, fireplaces, entry walls, outdoor kitchens, accent walls and columns, are among the most commonly used.

Thin veneer is not available.

3"-5" for full veneer, average of 35 sqft per ton.
