

#233 Aztec Blend (dandelion mortar joint)

Distinctive color composition and natural beauty have made this ingenious rock a premier choice among home designers and architects. Its peppery color with naturally weathered soft rusty tones create a unique elegance, the dark shade stone adds a wonderful contrast. The irregular shapes on the wall display above work well on a medium to large projects. Full stone house, columns, retaining walls, fireplaces, chimneys and many more applications.

1"-1.5" for thin veneer, sold by Sqft, corners by linear foot.

3"-5" for full veneer, average of 35 Sqft. Per ton
