## **#261 LEUDERS BUFF RANDOM ASHLAR (DRY-STACKED)**

Timeless and graceful color tones make this stone great selections among home designers and architects. Dry stack walls creates a more natural look. Contemporary and rustic homes will benefit from this view. It works great on retaining walls, hardscape projects, house siding, fireplaces, outdoor kitchens, and just about every application.

1" - 1.5" saw cut thin veneer, sold by sqft. corners by linear foot.

3"-4" for full veneer, average of 40-45 sqft. per ton.

Contact one of our sales associates for more details.
