

#99-1 Bluestone Rubble (dry-stack)

Unique colors, blues, browns and olive green characterized this fine grain rock. Its durability and beauty makes this natural stone very appealing for any house decor. The hand chisel texture and broken ends on a dry-stack gives it a rustic feel with a modern touch. It is an excellent choice for house siding, columns, fire-pits, fireplaces, entry walls and outdoor projects.

1"-2" thin veneer, flats by sqft corners by linear foot.

3"-5" full size building stone average of 35-40 sqft per ton.

You may also choose different joint color of your preference. Contact our sales associates for more details.
